Sir:

Reasons for allowance are only warranted in instances in which "the record of the prosecution as a whole does not make clear the Examiner's reasons for allowing a claim or claims." 37 C.F.R. 1.104(e). In the present case, Applicant believes the record as a whole makes clear the reasons for allowance and therefore no statement by the Examiner is necessary or warranted.

Moreover, the Statement of Reasons for Allowance is not accurate. For example, the Examiner has referred to claim language in allowed method claim 11. However, there are numerous apparatus claims, including claims 25, 27, 39, 41, 53, 55, and 83 and their dependencies. Applicant does not concede that these apparatus claims can be practiced only by practicing the claim 11 method, nor that method claim 11 can be practiced only by using one of the claimed apparatus.

PATENT APPLICATION

Applicant submits these Comments in an effort to ensure that the claims are properly construed based only upon limitations that are actually present therein and/or to ensure that the claims are not interpreted so as to include any additional claim limitations that are not found in the respective claims.

Respectfully submitted,
